Leaders of the "triple alliance" of labor viewed the situation today as being considerably improved, John Robert Clynes, chairman of the par-liamentary party, being quoted as say-ing he was satisfied a solution of the problem could be found.

He proposed that the miners then delegate six representatives to meet six representatives of the mine owners, with sentatives of the mine owners, with or without government representa-tives present to "begin the examina-tion of possibilities, and report to their respective constituencies."
